

Key objectives

The emphasis in the project unit is on your ability to work independently. In order to successfully complete the advanced statistics project you should show that you can:

- (i) understand the objective of the particular project and decide what work you need to do to meet that objective;
- (ii) use and understand new material acquired outside the classroom context;
- (iii) demonstrate independent and/or critical thought;
- (iv) manage your time effectively when there are only long-term deadlines;
- (v) communicate your work effectively in writing and orally.
